Dear Mr. Serino,

We would like to thank you for going above and beyond anything that could be expected from a class advisor. Your enthusiasm and tireless commitment has made our high school experience the best it possibly could have been. From planning every senior event, to reaching out to every member of the class, you are the epitome of what a great class advisor should be. You have shown us what it means to come together as a class and have enabled us to have an amazing senior year at Masconomet.

There aren't enough words to express our gratitude,

- THE CLASS OF 2008

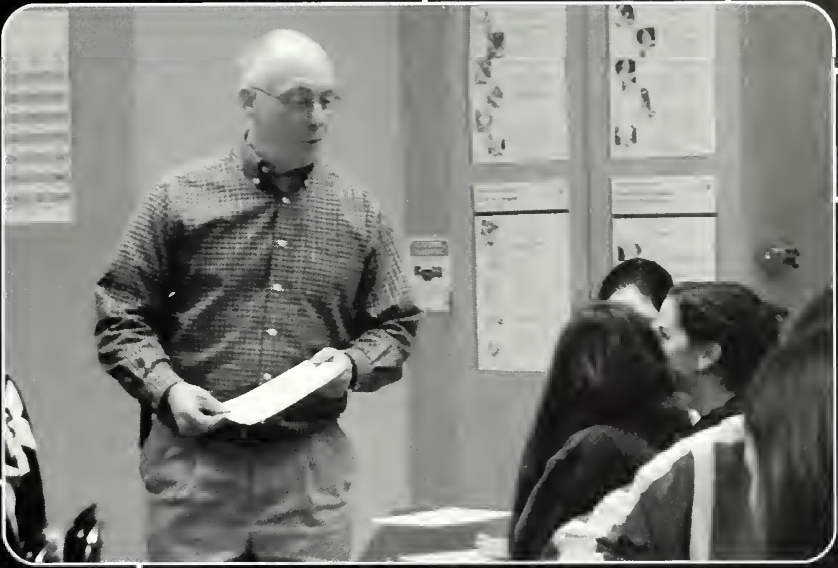
Thank you

2008 Dedication
Mr. West

Mr. West is one of the most well-liked and valued teachers at Masconomet. For 18 years he has shared his passion for the health sciences with his students. He loves teaching and makes his classes even more thought provoking through student debates. In addition to teaching Masco's EMT course, Mr. West teaches a Northshore Community College course and helps train other EMT teachers.

Not only is Mr. West an amazing educator, but also an involved member of the community. Up until recently, he was a Fire Fighter in Boxford. He loves photography and theater, and he also loves Apple computers. Those who know Mr. West say that he often visits the apple store just to browse the new Macs.

Mr. West has taught a range of health science courses, including Health, First Responder, EMT, Intro to Medicine and Intro to Health Care. He also worked in guidance many years ago and taught at a Catholic School. During his engaging in-class debates, Mr. West can take any side of a topic, encouraging his students to broaden their views. He not only challenges his students to learn and experience new things but values broadening his own education and views as well. Mr. West is an energetic, engaging, and knowledgeable teacher whose impact on the student body will never be forgotten at Masco.



Above: Mr. West hands out an exam to his EMT class. The class is composed entirely of seniors and many say it is one of their favorite classes.

Above: Mr. West and his family stand proudly beside his son Mike at his 2007 graduation from Masconomet.

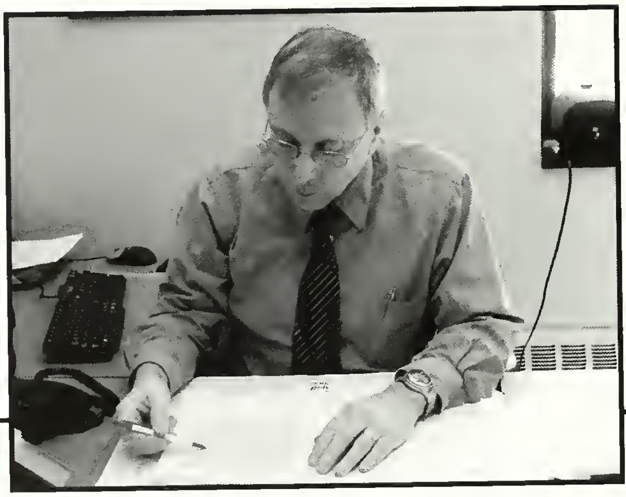
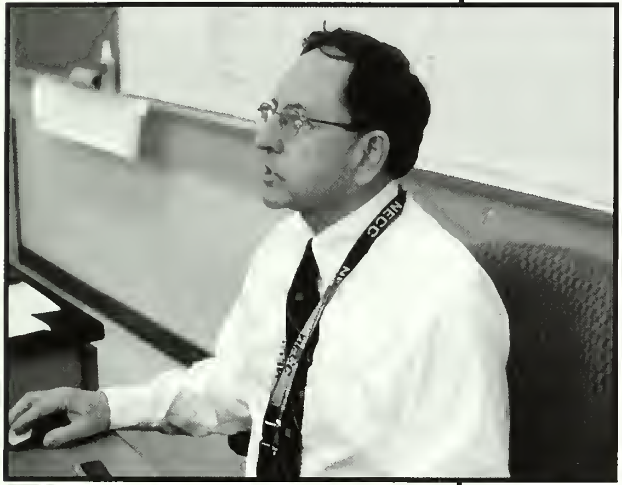
Retirees

Mr. Meegan



Although Mr. Meegan will be retiring this year, his great impact on the Masconomet community will never be forgotten. Mr. Meegan has taken on numerous roles during the 41 years he spent here in the high school and has left a lasting impression on many students and teachers. He has taught several history and psychology classes, served as a class advisor for 12 years, was an NHS advisor for eight years, and acted as the Student Council Advisor for a notable 18 years. He is also the founder of Masc'os elite Model United Nations team. His plans for retirement include continuing to teach classes at Merrimack College, and maintaining a private psychological counseling practice at his home. Recreationally, Mr. Meegan hopes to visit family in Ireland with his wife Stephanie, maintain his Bonsai collection, and perform renovations on his home. Although Mr. Meegan has plenty of events planned post-Masco, he says that he will miss his students and fellow faculty members. He will also miss the satisfaction he receives from educating young students, a dream that he has pursued for as long as he can remember.

Mr. Uhrich



Mr. Uhrich has been active in the Masco community for over 44 years. He has taught many classes in the Science Department, including Biology, Physical Science, Human Anatomy and Physiology, Marine Sciences, and Environmental Studies. He was also an Assistant Coach for the Varsity Basketball Team and coached the Freshman Baseball Team. Outside of Masco, Mr. Uhrich worked as a biologist during the summer and over school vacations, which increased his knowledge and experience in the field of science. Before working at Masco, he taught for one year in Indiana but says that working here has fulfilled his dream of teaching in "an excellent school system". Mr. Uhrich is looking forward to spending time with his "six granddaughters and traveling with service projects all over the world" for the next few years. However, after he retires, Mr. Uhrich will greatly miss the Science Department Staff and all of his students.

Anyone fortunate enough to have crossed paths with Mrs. Symmes during the 35 years she has spent teaching at Masconomet will remember her positive attitude and enthusiasm for her job. She began her teaching career in the Middle School Physical Education Department, where she enjoyed getting to know each and every student. Over the years, her job has evolved from teaching Physical Education to Special Education, and she "has enjoyed it all". Outside of the classroom, Mrs. Symmes has coached various sports, including gymnastics, girls outdoor track, and field hockey. As a Masco graduate herself, she has put every effort forth to make sure her students receive the same positive experience that she enjoyed at Masco. During retirement, Mrs. Symmes is planning to travel and pursue hobbies such as scrap booking, gardening, and quilting. Although its going to be hard for her to leave behind all the students and staff members, Mrs. Symmes has many memories of those "special moments" of making a difference in childrens lives.

FACULTY
survey

What impression do you hope to leave on the class of 2008?

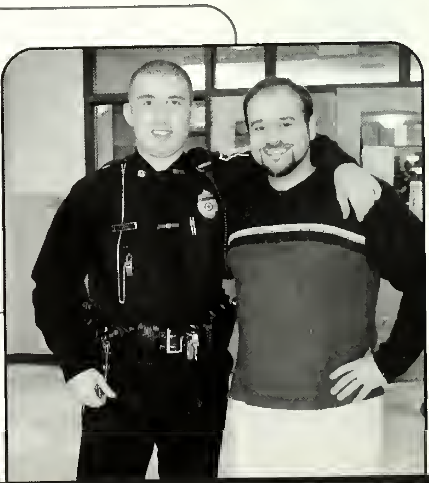
"I hope they feel like I cared about them. I hope they know to go for it, to trust themselves, to be good people." - *Mrs. Ryan*
"I do a pretty good impression of Forrest Gump...does that count? If not, my safety impression is Babu Bhatt (from Seinfeld)" - *Mr. Yutkins*

What is your impression of the class of 2008?

"A very energetic bunch" - *Mr. Donahue*
"They are great kids with a lot of talent" - *Ms. Saitta*
"Like all Masco classes–they are wicked smaht. And they always make me laugh–they are so funny! I want to thank them for all the smiles" - *Mrs. Ryan*
"They are a great class - kind and caring"
- *Mrs. Shapiro*

Which grade do you prefer to teach and why?

"Seniors are the most fun" - *Mrs. Larosa*
"11th graders...they're old enough to get my sense of humor, but young enough that they still come to school once in a while" - *Mr. Yutkins*
"Freshmen – more of an age difference"
- *Mr. Donahue*



How do the students you teach compare to the students you went to high school with?

"I went to Masco so they are pretty similar...except there are a lot more cell phones" - *Ms. Saitta*
"They are smarter, savvier and more motivated; preppier too" - *Mrs. Larosa*
"They don't compare. Masco is awesome." - *Mr. Donahue*

Have any of your students ever called you mom or dad?

"Yes, but only the ones that were actually my children, which so far, is none. So to be more accurate, no. Except one did, a while back, but I think it was while they were having a seizure" - *Mr. Yutkins*
"No...they usually call me Ms. Samaha." - *Ms. Saitta*
"They have called me many things, but never that." - *Mr. Donahue*
"Yes, Mom" - *Mrs. Mirra*

What is the most awkward/embarrassing thing you've done in front of a class?

"I was observed by my department head, only to be told by the class after she had left that my shirt was on inside out" - *Mr. Donahue*
"When I was pregnant with my daughter, she was doing somersaults, and my stomach was very visibly leaping around when I was teaching one day. Everyone was staring at the tsunami in my belly and giggling." - *Mrs. Ryan*
"I have an embarrassing moment everyday...I guess as you get older, you just dont care as much!" - *Ms. Saitta*
"I once mistakenly called a student by the wrong first name, and the other students promptly corrected me. To try to save the situation, I shook my head in confusion and started asking the other students what their names were, each time shaking my head saying things like 'no, really?' and 'oh...so that's your name'. I don't think it made me look any better, but at least now they think I'm nuts." - *Mr. Yutkins*

HOMECOMING *WEEK*

MASCO
MASCO

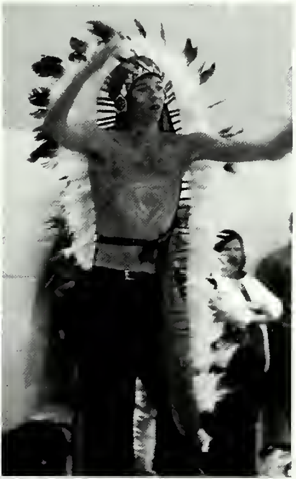
Even the teachers showed their spirit this homecoming! The guidance department were Masco superfans, while Mr. Clark who wore a Led Zeppelin shirt on Dress up-Dress down day!

Each class had a great time decorating their hall this year in the theme of U.S. cities.

The 2007 homecoming week was full of friendly competition amongst the classes. The freshmen, sophomores, juniors, and seniors each did their best to show spirit for their school through hall decorating and spirit days. This year the seniors carried on the tradition of upperclassman victory. The exceptionally decorated Las Vegas themed hallway and overwhelming class participation in the spirit days helped the seniors procure a solid victory over the other classes. After a weeklong display of spirit at Masco, the football team pulled out a big victory at the homecoming game. The homecoming king and queen, **Ian Gelinas** and **Annie Burns**, were announced at halftime. The annual carnival was also a success. Sports and clubs went all out, setting up booths to sell goods and services. Adding to the fun was a Velcro wall, bungee run, and a dunk tank, where students took out their frustrations on poor defenseless teachers. The entire week of homecoming was a sensation and a true display of Masco pride and spirit!

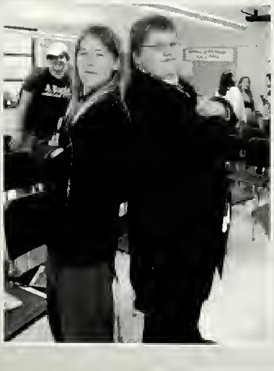
Seniors **Andrew Dooley** and **Katilyn Chambers** show their spirit at the pep rally on Friday afternoon.

Sophomore **Jake London** pumped up the crowd all week long as the best Chieftain Masco has ever seen.



A highlight of homecoming week was the two teletubbies, who could be found wandering the halls on Friday, and then ran across the field house with the chieftain at the assembly during the afternoon.

Newly crowned homecoming king, **Ian Gelinas** looks estatic with his win after an incredibly close race.



On a chilly November night, students and faculty alike congregated in the Masconomet field house awaiting the start of the most anticipated game of the year. On one side, the faculty (top left), led by the fine educators of Masconomet. On the opposite bench was the pride of Masco's student basketball players. The game was incredibly heated (bottom left) but enjoyable nonetheless. The students put up a valiant fight with senior **Chris Conova** scoring top points for the team. **Mr. Hodges** led the faculty, scoring numerous points, while keeping the competition in check. The Step team made their debut performance at halftime, keeping the crowd excited and entertained. In the end, the faculty was victorious for the third year in a row with a close score of 52-47. With faculty victories stacking up by the year, the students will need to work harder than ever to overthrow this dynasty next year.

{ Spirit Day Assembly

November 21, 2007

On the day before Thanksgiving break, the field house floor was a blur of black, red, white and blue as the four classes competed for the title of spirit day champion. The student body gathered together to watch representative members of each class participate in different team events. Among the most entertaining to watch was the president roulette in which each class president had an egg cracked over his or her head. The seniors dominated the relay race and rolling-chair basketball game. They continued to assert their place at the top of the school and were victorious overall with the most wins of any class. Close behind them were the sophomores and freshmen while the juniors took last place because they cheated in a number of events.

Nate Hooper

Liam Bickerton

Timmy Kastrinelis

Sixteen of Masco's most desired bachelors came together for a night of heartfelt performances and crazy antics to capture the coveted title of "Mr. Masco". The annual competition, this year hosted by juniors **Mike Tyler** and **Dan "The Man" Swimm**, was an utter success. All of the contestants bravely answered romantic questions in front of an auditorium filled with swooning schoolgirls. Inquiries included proposal techniques that had the audience screaming "YES, YES, YES!". The talent portion of the competition was, in a word, "epic". There was never a dull moment, as acts ranged from an acoustic guitar performance to a unique dance routine to Daft Punk. The evening came to a close with the crowning of sophomore **Nate Hooper** as Mr. Masco. He's hoping that he finds his "two-foot tall, smokin' hot, 90 pound princess!" now that he is Mr. Masco.

The judges, including Mr. Love and Mrs. Marini, intently tally the scores to determine who will be the next "Mr. Masco".

This winter, Masco hosted its first ever student-run film festival. The night opened with a short play called, "Of Widows and Vegetables": a dark comedy about the widow of a zucchini enthusiast. **Justin Rice** played the lead role of Harlequin, the narrator for the performance. **Harry Paine** was excellent and very funny as the gold-digging villain, Malvolio. After the play, the film festival began. Each film was student-directed and written, and some of the films had been in progress since October of this year. The first film, *Journal Entry,* directed by **Erika Lindquist**, examined the life of a shy, observant student, played by **Colby Thompson**. The second short film, directed and written by **Bailey White**, was *Red Motel.* It had a chillingly creepy plot and was filmed at the Carriage House Motel on Route 1. The final movie was a spoof on the popular television show *America's Next Top Model.* There was no strict script for the film and as a result, the actors created most of their lines and jokes on the spot. The film followed 13 models through the top model competition providing comedic relief throughout the auditions, photo shoots, and eliminations.

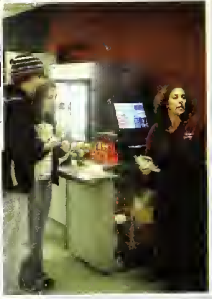
In the Cafeteria

What happens in the best 35 minutes of the day?

True Life: I Go To Lunch!



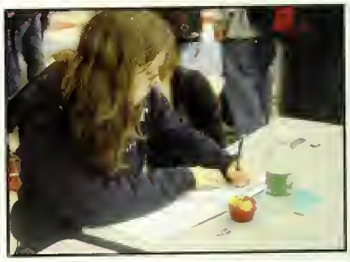
Sitting in the back of Mr. Trevenen's English class, drawing on my notebook, I can barely concentrate on the exciting discussion of To Kill A Mockingbird for the growling of my stomach. 11:59, yes! The end of class couldnt have come any sooner. My mind shifts quickly from Boo Radley to dancing pepperoni pizzas and rivers of delectable chocolate milk streaming out from their cartons. I shuffle my notebooks together and fly down the hall. Today I am going to get a front spot in the lunch line, before all of the senior football players get there and eat all of the food. Seriously, does anyone actually need three lunches? I run down the stairs and through the hallways as fast as I can, but my 38 pound backpack is slowing me down. NO! I think to myself as I see three Senior boys glide past me, the hunger glowing in their eyes. By the time I finally make it to the cafeteria, the line of students is already out the door. I decide to nix the pizza and attempt to buy a yogurt concoction at Java City. The line is slightly shorter, and I can eat my food on the go. After 20 minutes, it is my turn to purchase my lunch, but alas I have forgotten my lunch number. I can never remember it and those lunch ladies never cut me a break! I quickly maneuver in and out of the crowd into the small cafeteria, where I collapse into a seat next to my friends. They all brown-bagged it and are practically finished. I get one beautiful mouthful in before Mr. Clark enters and announces that class is starting. I think tomorrow I'll stick with moms homemade Pb&j.

Lunchtime Lessons

"I've learned not to eat deli meat that has been sitting around for seven hours. At school I eat Wheat Thins and apples and thats pretty much all."
- **Kate Grannemann**, senior

"I always check my seat before I sit down. I check for accuracy and so I know there isn't anything spilled on it."
- **Kara Manton**, senior

"You have to go early or late because if you hit the lines, you're dead."
- **Nic Baltas**, junior



Outside Dining

The tables given as a gift from the class of 2006 are put to good use every lunchtime with good weather. These picnic tables provide a place for students to eat outside and escape from the busy cafeteria.

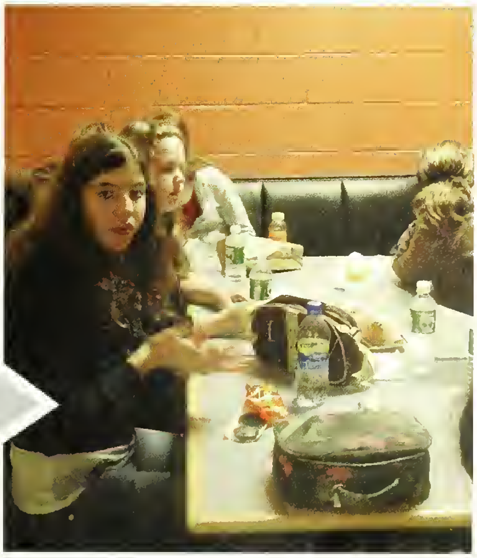
53%	The big cafeteria, so I never miss the big food fights.
38%	The small cafeteria, I don't associate with those other people.
9%	Outside, so I'm not overwhelmed by the cafeteria funk.

A group of merry seniors enjoy their lunchtime feast at the round tables in the small cafeteria. Even though they have "A" Lunch, they still agree that lunch is the best time of the day.

Underclassmen test the new "leather" booth installed over summer break. This is one of the most sought after places to eat lunch and reservations must be made a period in advance. .



Freshmen- Sophomore
Semi Formal

The Freshmen-Sophomore Semi Formal Dance had a great turnout of students this year. Over 500 kids from Masco and other neighboring schools arrived at the Sheraton Ferncroft on Friday, January 25th dressed up and ready for an enjoyable evening. The DJ played an upbeat selection of music that kept everyone dancing late into the night. The dance floor this year was also especially colorful and festive because of the glowsticks given to the students at the beginning of the dance. Towards the end of the night, the chaperones raffled off several gift certificates to stores like Abercrombie and Dicks Sporting Goods, as well as iTunes gift cards.

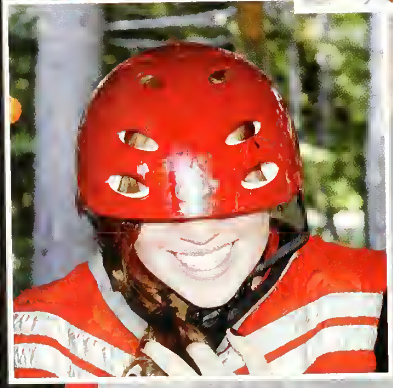
Leadership Rafting Trip

September 8- September 10 2007



Masco's leaders were full of "Moxie" when they braved class four rapids on the Penobscot River in September. From Prom Chair to Class President, everyone holding a leadership position piled into a coach bus for the five and a half hour trip to Millinocket, Maine. A local rafting company, Moxie, guided the students down twelve foot waterfalls and through thrashing whitewater in their signature orange boats. "We surfed on the holes until our booties came off!", said senior Treasurer, **Madeleine Hardy**. Another memorable part of the trip was the Summit Challenge. Junior **Jim Dixon** was the first student to attempt to consume the fourteen scoops of ice cream, topped with two bananas, four snickers bars, M&Ms, cherries, whipped cream, and chocolate sauce. Other students followed suit and ordered their own colossal ice cream sundaes. All in all, the leadership trip was an unforgettable experience that succeeded in forming bonds between the leaders of each class.

Every year, the school hosts Freshmen Orientation Day to help the incoming freshmen adjust to their new environment. The event is planned and executed by Peer Leaders, upperclassmen selected based on their leadership qualities. The freshmen are split up into groups of ten to fifteen students guided by three peer leaders. The peer groups allow the new students to remain in their comfort zone while meeting upperclassman and teachers and familiarizing themselves with the high school building. Throughout the year, the Peer Leaders maintain a connection with their group through several freshman-only events. These activities include peer group breakfasts, the Twelve Days of Giving, and the Freshmen Walk. The Freshmen Walk is the biggest activity the peer leaders plan for the new class. On Friday, October 12th the class of 2011 and the Peer Leaders walked six miles through Topsfield. Each student received donations from friends and family to contribute to the Jimmy Fund. The Freshmen accumulated an astounding $25,000, more than any previous class raised during this event.

Do you ever hear anything in the bathroom, hallway, cafeteria that you can't believe? Do you sometimes wonder wha people are thinking when they say things outloud? We know that we sure do. All these things were....

OVERHEARD

at Masco

"Oh crap! I forgot to feed my pet cricket."

[While indulging herself at lunch, this girl realized her pet cricket was starving at home. Oh no!]

"So then you solve for one half *'I'* *'butt'* squared to get *Jesus fish*'."

[During physics class, this equation is recited by teachers and students alike.]

"Apes are like waayyy smarter than humans."

"I threw my cat on the ceiling, to see if it would stick."

[There are no explanations for these two.]

"Wait...who won the American Revolution? The French?!? Oh wait, that was stupid, the British!"

[Isn't American History a requirement at Masco?]

"Why is the equator so warm if it's zero degrees?"

"Do you need a passport to go to Hawaii?"

[Although it is said that there are no stupid questions, these may qualify.]

"You're such a manipulative whore.

What? I'm not manipulative!"

[Two friends arguing.. one of them did not exactly understand the irony.]

"Does that say 'oodah'? What does 'oodah' mean?"

[Oodah definitely isn't how you pronounce "Utah"... At least this wasn't said in history class.]

"There is an onion stuck in my throat from last Friday when I went to McDonalds. (1 hour later) Guys I just coughed up the onion!!!"

[On Monday, a girl was complaining about not being able to breathe because of this "supposed onion". To everyone's surprise, at the end of the day she actually coughed it up!]

{ Masconomet Abroad

Masco's students would agree that traveling to a new country is an incredible and influential experience. They were fortunate enough to have had the opportunity to attend three different exchanges in Europe. In October of 2006, twenty-four exchange participants hosted French "etudiants" for two weeks. In April, the Masco students traveled to Rennes to live with their host families and Paris to explore on their own. While in Rennes, the students experienced the Francophone culture through seeing a frolicking unicorn pony, as well as touring the surrounding city. The majority of the students got along well with their French families, "Sophia was the sister I never had", said junior *Kayla Naczas*.

The Spanish Exchange lasted for three weeks, so the participants were able to visit three separate regions of Spain: Madrid, Barcelona, and Mallorca. The students spent the majority of the three weeks in Mallorca, an island off the coast, with their host families. For many, the trip was an eye-opening experience. "I've never felt so culture shocked", said junior *Gillian Fitzgerald*, when describing how her Spanish family whipped out a pig leg for dinner.

The German exchange was a bit smaller than the others, with only nine students traveling to Trier and Munich. Sights included the Castle Neu Schwanstein and a cathedral in Cologne. The Masco students also viewed the movie 300, after which it wasnt uncommon to hear, "Spartans! What is your profession?" echoing through the streets of Munich. For many of the exchange participants the trip was their most memorable event from Masconomet, leaving an impression that will last a lifetime.

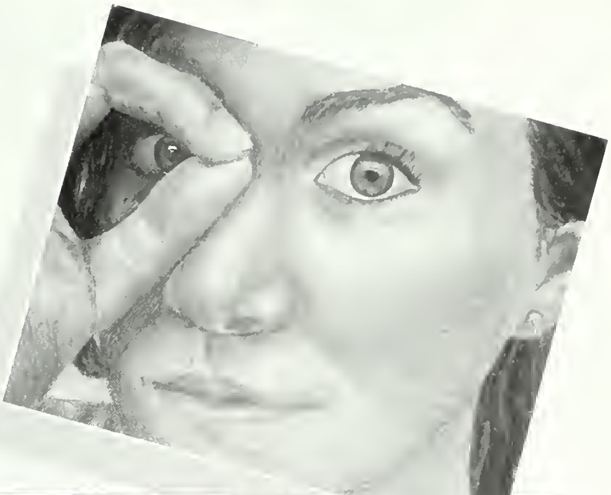
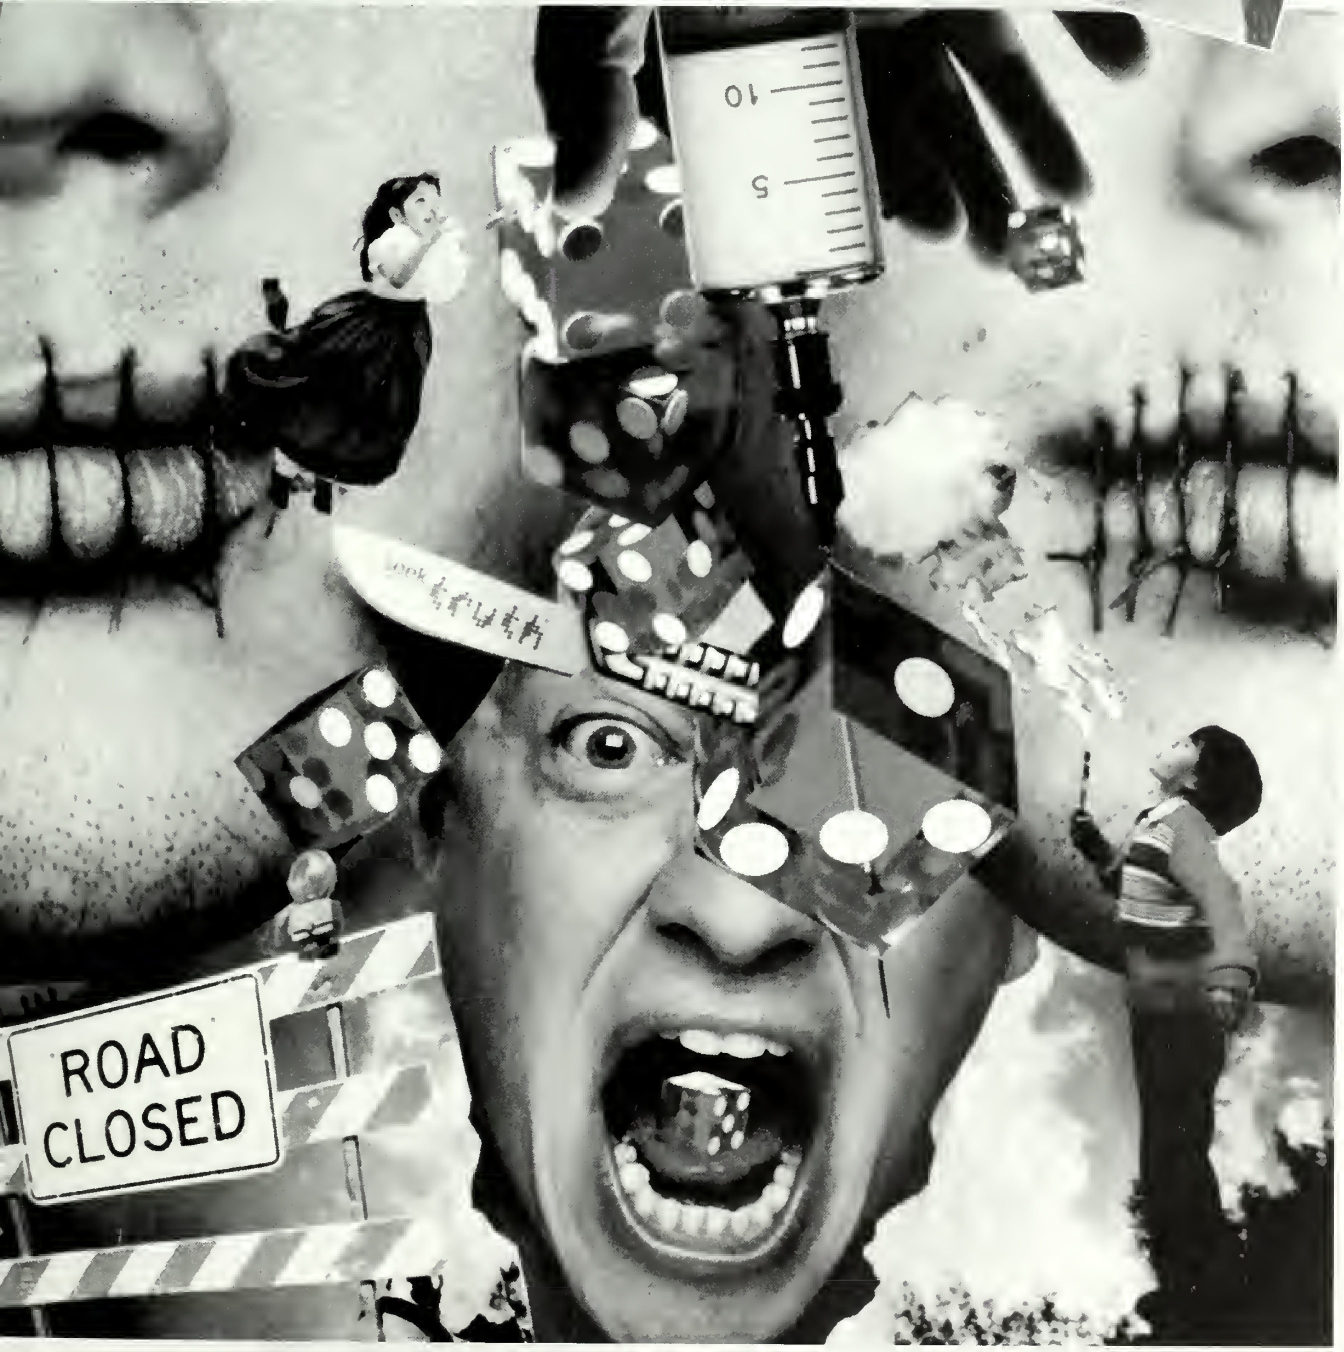
John Knight remembers taking art classes at just four years old. Ever since, he has progressed into a talented student artist through various art courses here at Masco. Johns artwork reflects his personality, as seen in his goofy-faced self-portrait. He enjoys working in many mediums, but doesnt like pencil. Johns artistic achievements are balanced out by his strong academic and athletic careers. From an outside perspective, John doesnt seem like the typical art kid, but in reality, it is one of his true passions.

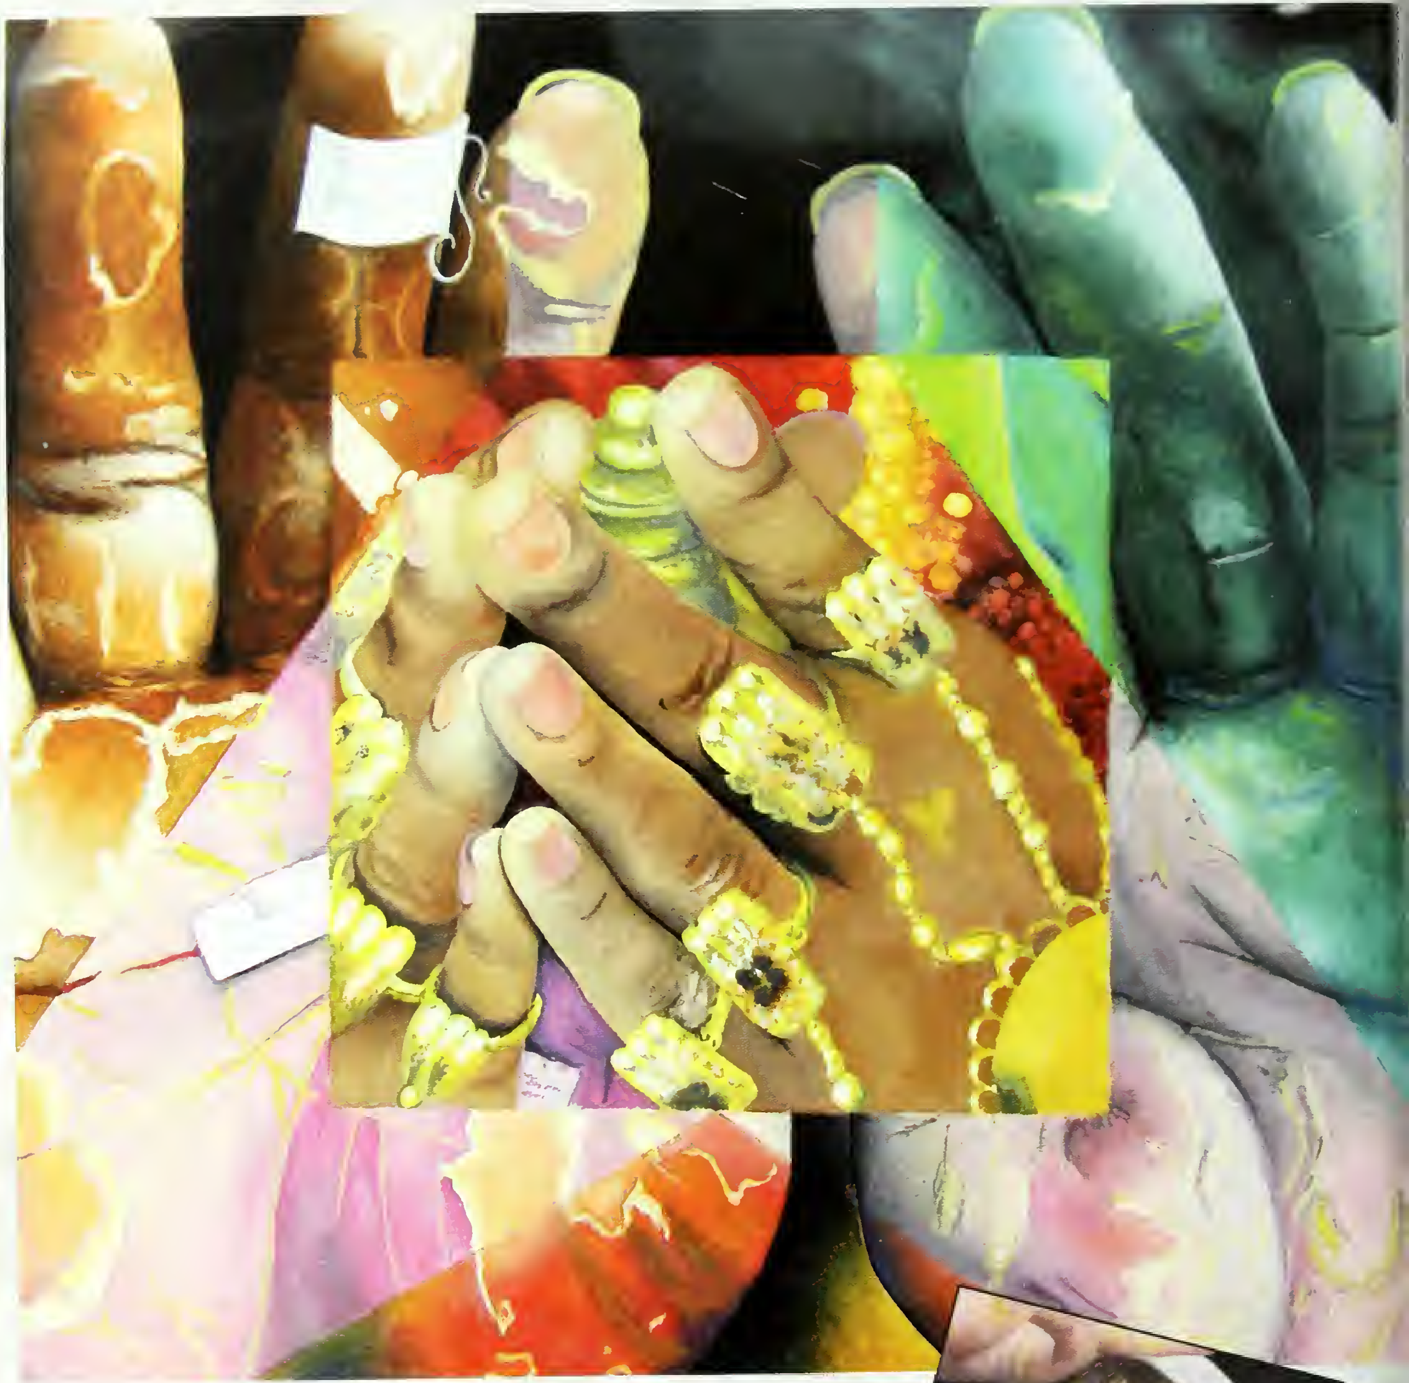
John Knight

Gracie Day

Hours upon hours of work have transformed Gracie Day from a three-year-old girl scribbling flowers on a home video, to an award-winning artist. Gracies collage pictured below was recognized statewide and received the Golden Key Award last year, the highest honor bestowed from the Boston Globe Scholastic Art Awards. Although Gracie is enrolled in several other art classes, including photography, art studio is still her favorite. Despite the enormous volume of artwork that a Masco student is expected to produce, Grace says that she doesnt even notice when art is hard because she enjoys it so much. As for the future, Gracie sees herself pursuing art in the years to come.



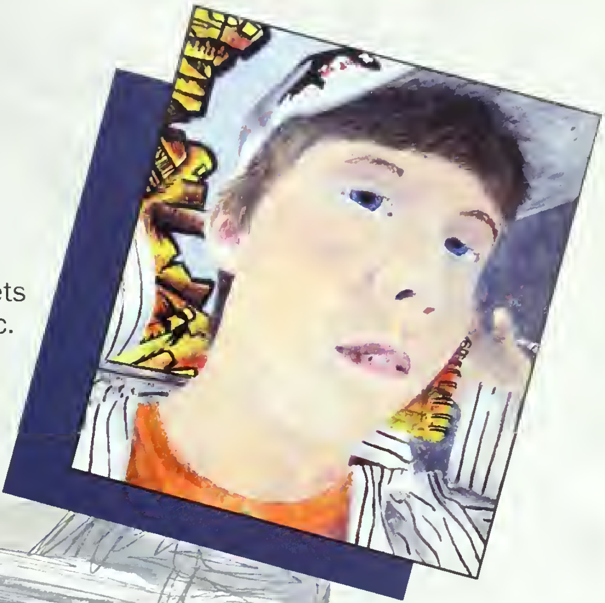




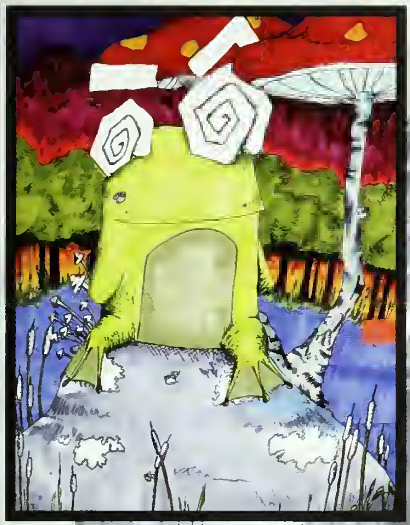
Meghan Pierce

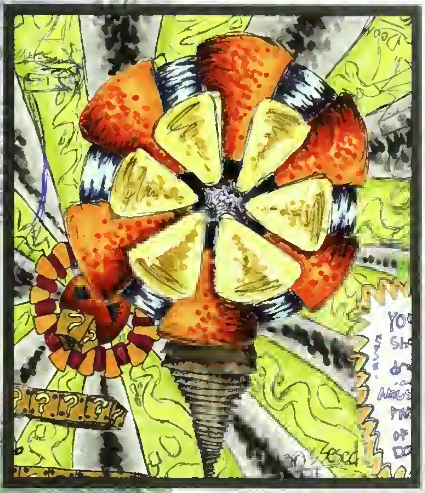
Meg Pierce is one of the most talented artists at Masconomet and has worked hard to develop her skills. Meg's path to award winning artwork began with summer art classes at a very young age. She has earned two Silver Keys at the Scholastic Art and Writing Awards and two second place prizes at the Saltbox Gallery in Topsfield. Meg's favorite medium is printmaking and she loves capturing human emotion in her work. She hopes to major in art at a liberal arts school next fall.

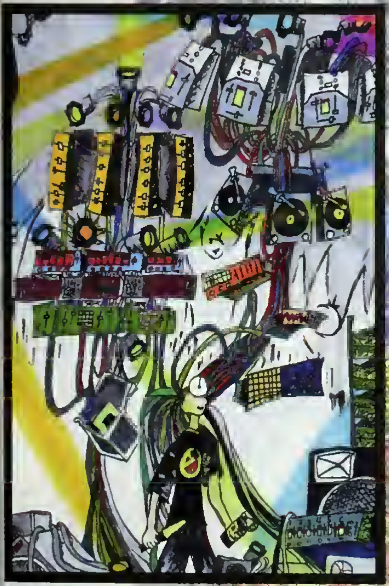
Paul Turnquist

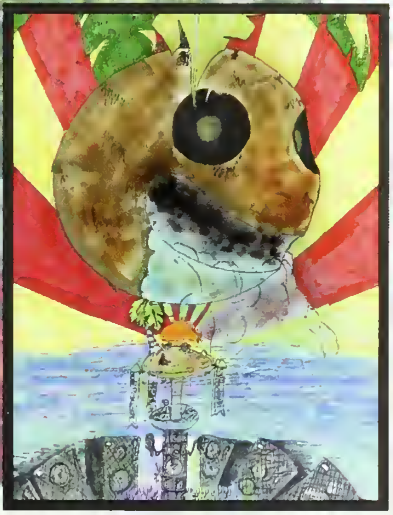


Paul Turnquist has been involved in art for,"pretty much forever". Although his projects have evolved from Magic Marker doodles to complex paintings, his passion for art has remained the same. When questioned about his favorite medium, Paul believes that it varies, whatever gets the idea out best. For inspiration, he often turns to music. Art has been a part of Paul's family for a long time. Both his grandfather and great-grandfather were gilders and sold artwork to the Rockefellers and Vanderbilts.

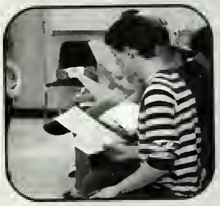








Masco Chorus



The Masconomet chorus perfects its sound through singing warm-ups and solfege exercises. Each performance song is meticulously broken up into different sections and practiced until each individual section sounds flawless. The chorus as a whole is composed of three main groups: singers, chorale and ladies chorale. Both singers and chorale meet every other day although chorale requires a more extensive commitment than singers. Its members undergo a challenging tryout for a position, and unlike the past, this year no freshmen made the cut. Ladies chorale has a similar curriculum to regular chorale, yet is somewhat more relaxed. The chorus holds Christmas and spring performances. The spring concert is "less formal and focuses on modern songs, show tunes, [and] fun songs", says senior singer Lang Haynes. Lang describes his fellow singers as "... a group of friendly, warm, people-singers". Everyone who participates in Masco's singing program, especially its director Mr. O'Cock, helps create this enjoyable environment that many students say helps keep them sane through the stress of all their other classes.

Senior Musicians

Ben Siwak

Ben Siwak admits that he plays music 24/7. Even when Im asleep, its up here, says Ben tapping his forehead. Ben began playing the saxophone for concert band in the fourth grade. When he reached high school, Andrew Clinard, a senior at the time, inspired him to play the string bass. Ben has been mainly a string bass player ever since and currently plays in a band named Blues Catalyst, a.k.a. "Squirrels in a Suitcase". Ben plans to take his music to a new level by attending music school next fall.

Kathy Burton

"I love band!" says senior, Kathy Burton. Kathy is the only senior that plays the trumpet, and up until this year was the only girl in the trumpet section. Although she was originally attracted to the trumpet in the fourth grade because it was shiny and loud, she is now passionate about the instrument, something she shares with her band friends. Kathy considers herself a cool band geek, and says one of her favorite parts of band is playing at the football games. Kathy describes her band experience as "stupendous", and wants to continue playing in college.

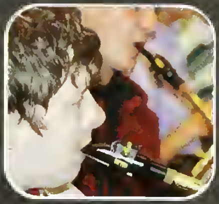
Masco Band



In fourth grade it seemed as if everyone belonged to the school band. Over the years, the group has been whittled down to a select, talented few with an enormous dedication to music. These students combine hours of practice with passion for their instruments and produce an amazing result. Youll find the band at every home football game supporting their team, as well as playing during school assemblies and pep rallies. Many band members say that their favorite event is the Outback Jazz Concert held at Masco. Although band takes up a lot of time and elective space, the band members agree it is undoubtedly their favorite class. Mr. O'Keefe, the band director, is one of the funniest faculty members according to his devoted band and creates an enjoyable experience for all. To culminate a great year of musical excellence, the band hosts a banquet where they celebrate outstanding individual triumphs through awards.

The class of 2008 dominated Frolics this year. After three long, sleepless weeks of skit writing and rehearsals, the show was a phenomenal success. Frolics undeniably lived up to its theme of "Best Year Ever". One junior even said after the show that, "the seniors definitely raised the bar for us next year". Skits included the traditional student and teacher fashion shows as well as the chorus lines. **Trish Spinelli** and **Teddy Reed** were great hosts and kept the crowd laughing throughout the evening. One of the funniest movies featured **Lauren Camuso** causing chaos in the Tri-Town area. In another memorable skit, several senior boys strutted their "stuff" dancing to "Call on Me". Overall, the seniors of 2008 put on a great production. Despite the long hours and tiring practices, they had a truly incredible experience working together to raise money for their class.

Making his directorial debut, senior **Lang Haynes** co-directed this falls musical. The drama department put on three performances of *The Sound of Music* in the high school auditorium. **Kay Maysek** once again sang amazingly in her role as Mother Superior. Lang, who in addition to directing, filled a smaller role in the musical and said that, It was amazing the amount of work that went into the directing job. While he still prefers acting, he appreciated seeing the production from a different perspective. All in all, the fall musical was an enormous success; truly filling the halls of Masconomet with the sound of music.

Model United Nations provides the opportunity for Masconomet delegates to experience how the actual United Nations functions. Students prepare for a final conference through evening meetings in which they write position papers, working papers, UN resolutions, and also practice debate skills. Eventually delegates are assigned a country to represent in a conference with other schools. The conferences, held in both New York and Boston, involve students from across the country. Model UN is a challenging way for students to experience the difficulty of resolving real life issues.

The only thing more impressive than Masco's bright Friday night lights on the football field was the 2007 football team itself. With a regular season record of 10-1, the boys had one of their strongest performances ever. The combined efforts of senior powerhouses, like captains ***Mike Nazzaro*** *and* ***TC Mannetta*** *, along with the sophomore talent of* ***Evan Bunker*** *and* ***Chris Splinter*** *led the entire team to the semi-final game of the play-offs. Masco football support was phenomenal this year, with both the pep band and fans braving tough weather conditions and driving great lengths to see the boys play. Season highlights were winning the homecoming game and a dramatic victory over long time rival, North Andover.*

To unite the group, the girls went out to dinner and attended pasta parties with the football team. This year, a new coach was introduced to the team, and the training was intensified through weekly practices at a cheer gym in Tewksbury. These changes, as well as new freshman talent, helped the team achieve a high standing in the Cape Ann League. The boys cross country team continued to carry on their tradition of success. With only one close loss to Hamilton-Wenham, the boys achieved an impressive record of 11-1. Pat Mahoney acted as head coach for the first time this season and stepped up the level of training. The boys ran distance three days of the week and did track workouts the other two. Practices were harder. "It was intense", said Senior ***Jack Santos*** *who also stressed the importance of summer training and not skipping practices. Even though the team required a lot of effort, the guys still managed to have fun through joint pasta parties with the girls team and Meatfest. Standing at the front of the line, my heart is pounding and my leg muscles twitch with anticipation. As the starting gun fires, my body speeds up but my mind is focused. Focused on winning the CAL meet, focused on beating my PR, and focused on my teams amazing season. We have won every meet except for one, with a record of 11-1. I'll never forget how close the bunnies became, through pasta parties, tie-dye day, and singing S-Club 7 on bus rides. Nothing brings a team together like suffering through the gauntlet in 90-degree heat. Third ye coach, Rebeckah Iseman, and her team started pre-season training with one goal in mind: to gai respect. After three years of summer camps, running drills, indoor leagues, and an intense lov for the sport, the girls finally achieved that goal this season. Their final record, 13-5-2, reflected complete turnaround from the record just two years ago, 4-13-2. "This year the team just had more heart and more desire to win", said Captai ***Kelly Gibson****. One of the more memorable moments was when the girls beat Amesbury for the first time in eight years. The day was oppressively hot and humid, yet the girls pulled o a 1-0 win through their head, heart, and guts. First-year coach, Ms. Masiello, and her varsity volleyball team started off the season with a bang. A record number of girls showed up to double sessions in August, eager to show their skills. After attending a summer volleyball camp together, the returning players were more than ready to bump, set and spike their way to an outstanding season. Through the long practices and exciting games, the girls always kept a positive attitude and were able to unify through traditions such as dancing when scoring a point. A few matches were exceptionally close; during one match against North Andover, the Masco team was forced to play all five games before they won. Captains ***Cat Rossi*** *and* ***Lauren Camuso*** *say their 6-14 record hardly reflects the talent and dedication of the team, and predict that next season the girls are really going to make a name for the program.*

Go Big or Go Home

"What's good baby?", echoed through the gym many times this season after the Chieftains landed numerous three-pointers. The Boys Basketball Team pushed itself and ended with a final record of 13-8. After starting with a tough schedule, they stepped up their intensity and won eight games in a row. Their hard work eventually paid off and the team was seeded 4th in the state tournament. The boys started new traditions this year, including wearing NBA jerseys and sweatbands to practice and listening to pump-up music before games.

This season, the Boys Indoor Track team worked extra hard to fill the missing spot left by last year's seniors. According to Junior **Sean MacDonald**, "A lot of talent came from the incoming freshmen" and next year the team hopes to continue wit the same winning attitude and surpass this season's record of 4-5. The entire team was very close, and at the banquet Coach Picillo commented that he was impressed with how inseparable the tea was. Life in the Fast Lane

Although it was supposedly a "transition year" for the girls on the Masco Indoor Track Team, they discovered that with discipline and new talent, they could overcome the loss of last year's graduating runners. Their final record was a remarkable 9-1-1. After they placed fourth in the Cape Ann League Open Meet, Captain **Molly McCann** *said that the team is expecting "an improvement in rank next year." The girls on the team are extremely close and attend holiday parties and other events to strengthen the bond. In keeping with the feeling of togetherness, Coach Cavallaro took the girls to McDonalds where they ate ice cream and joked around after the Cape Ann League Open. The team sees their future as bright and plans to use emerging talent and tough training to improve next year's performance.*

Once again, the Boys Hockey Team got to "shower with lobsters" after they clinched a spot in the State Tournament. Captains ***AJ Rothwell, Danny "Cupid" McIlvaine,*** *and* ***Cam "Iron Giant" Greeley,*** *led the team to a remarkable record of 14-8. Even though the boys played hard, they had plenty of fun at pasta parties "rockin' out to Rockband". Next year, the players hope to "bring the physical brutality" and are looking for the underclassmen to step up and take leadership roles. Whether they were out on the ice, or simply hanging out after practice, the boys certainly had a great time this winter season.*

The Masco Girls Ice Hockey Team surpassed their goals with the success they had this season. Although the majority of the team consisted of underclassmen, the girls were able to come together more so than in previous years. Early on in the season, the girls were able to get a feel for each other while playing in the Pingree Tournament. Later in the season, the girls spent time bonding off the ice with pasta parties, fundraisers, and the occasional post-practice trip to Papa Gino's. The combination of veteran and underclassmen talent allowed the team to move in a new direction. The girls concluded the season by continuing their tradition of awarding scholarships to the graduating senior athletes.

The Boys Ski Team hit the slopes in early December. The large volume of snow in the beginning of the season was a nice change from last year when most of December was spend doing dry-land training. Though many talented racers graduated last year, the younger team members were able to step up to fill their "ski boots". This young talent was especially important when several of the upperclassmen injured themselves and missed races. Despite these setbacks, the boys worked hard to achieve a record of 4-6. Perhaps the most memorable part of the season was the last race, when the senior captains skied in wetsuits in memory of Brian Schwartz, who started this tradition. The boys excelled this year, overcoming every obstacle they faced, and the program has high hopes for next season.

The Girls Ski Team's season got off to an early start this year due to the great amount of snowfall in the beginning of December. The entire team worked hard during the shortened dry-land season and strengthened their legs through long wall-sits and numerous lunges. When the races began, the girls were prepared and won their first three races. They continued their success during the rest of the season and finished with an impressive record of 7-3. With one of the best seasons in the history of the program, this year's team pulled together and beat their rival, North Andover. Right: **Stacie Mercer** and **Tyler Casey** anticipate the night with excitement.

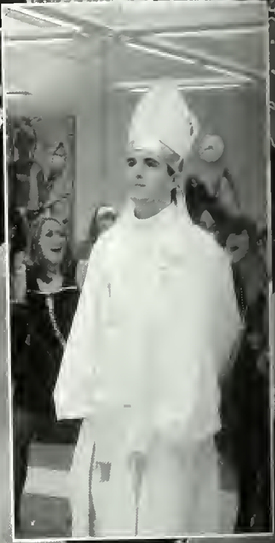
Left: A group of friends can't wait for the night to begin.

he sparkling sunset on Boston Harbor created a perfect backdrop for the 2007 Junior Prom. The
nt was held at the Hyatt Harborside Hotel in Boston on May 11th. The weather cooperated
utifully and the sunshine allowed students to mingle, take photographs and enjoy the evening
side by the water. The peaceful setting on the patio hardly hinted at the booming energy of the
ce floor inside. "All of our hard work paid off. I think everybody had a great time," prom chair, John
ght, said. The song, *Boston*, by Augustana played during the traditional dance of Prom King and
en. The class of 2008 elected **Ian Gelinas** and **Kaileigh Fowler** for this honor. The prom was the
ect finale at the end of a stressful junior year.

Above: **David Warner** showed a lot of leg with his vintage track "short-shorts." David also played bass for the band that opened the dance.

Above: **Teddy Reed** and **Danny McIlvaine** show off their suspenders, an integral part of their costumes.



Below: **Dom Bavaro**, **Sean Gallagher**, and **Christian Bandereck** are ghetto fabulous in their puffy jackets.

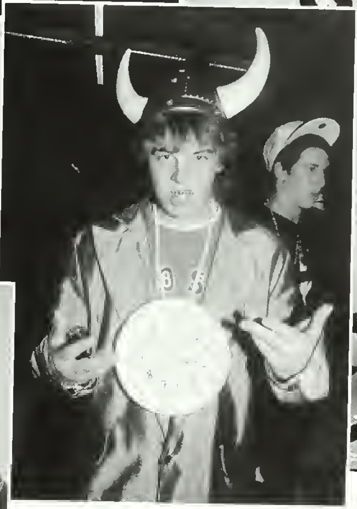
Above: Masco seniors and their French exchange students dressed in the colors of the rainbow. Each member of the rainbow wore a unique outfit including **Evan Turcotte** in a purple skirt and **Cary Liptak** in neon orange jeans.

Below: The winners of the group costume competition display their efforts as the Blue Man Group.

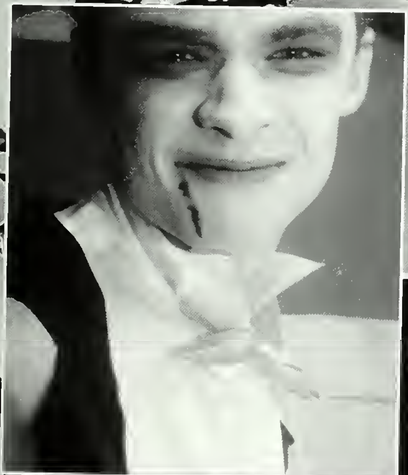
Halloween Party

Tuesday October 30, 2007

Romans in togas, zombies, and rainbows filled the large cafeteria on October 30th, the night before Halloween. This year the annual Senior Halloween Dance featured live music from a student band as well as unique prizes for the best costumes. After an hour of dancing, members of the student council awarded trophies to the costume winners. The Energizer Bunny (**Kevin Baranello**) won first prize for an individual costume, while the Blue Man Group (**John Knight**, **Kyle Shepard**, **Jeff Cianci**, and **Danny Duval**) took first place in the group costume competition. Other notable winners included an old time track star (**David Warner**), who won Sketchiest Costume, and Cindy-Lou and the Grinch (**Adrienne Dooley** and **Louis Cicatelli**), who won the Best Couple Costume.



Above: Flava Flav (**John Walsh**) showed up at the Halloween Party but unfortunately his girlfriend Delishus was unable to attend.



Above: **Jack Santos** clearly fit the part of a zombie prom king with his tuxedo, pasty complexion and bloody mouth.

Above Left: **Lucia Ferraro** and **Sean Crosley** made a trip to the 1950's and came back as Lucy and Ricky from *I Love Lucy*.

Despite the incredible snowstorm, which closed school earlier in the day, the Senior Holiday Party was a great success. Seniors socialized and danced the night away at the Georgetown Country Club. The DJ for the event traveled all the way from New York, and kept everyone entertained and smiling throughout the night. Before the dancing began, a few lucky students won prizes from a dance contest and a purse scavenger hunt that kept everyone on the edge of their seats. The Holiday Party was one of the most successful senior events so far and enabled the senior class to get into the holiday spirit with their '08 family.

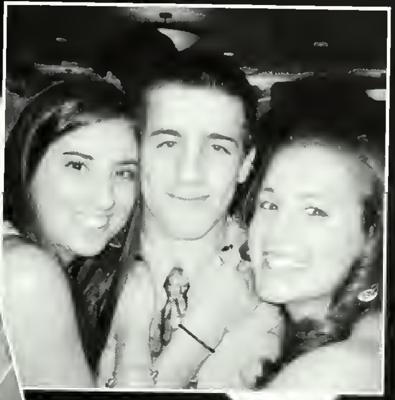
Valentine's Dance

Monday, February 11, 2008



The senior class gathered together for their third dance of the year on Monday, February 11th, 2008. Many students sported pink and red attire at Spinelli's Function Hall in Lynnfield to celebrate Valentine's Day. The DJ, who made his debut at the Holiday Party, organized fun activities during dinner. The seniors enjoyed a delicious meal of Chicken Parmesan before the dancing began. The upbeat music kept everyone dancing the whole night. The Class of 2008 was once again able to form unforgettable memories together.

These past four years have been amazing. I remember sitting near the end of eighth grade listening to Mrs. Culver talk about, "These next four years are going to go by fast". At first I laughed. But now I realize that she was right. Those of you who need to be thanked know who you are. Truth is I have 2 inches and there are too many of you.

The only thing between you and the ladder to success is the ladder…but it takes the determined, and hard working person to climb it.

All generalizations are false. There are three kinds of people in this world; those who can count, and those who can't. It's better to be hated for what you are than loved for what you are not. Things always hit you when you least expect them, wear a helmet. Strangers have the best candy. You laugh because I'm different, I laugh because you're all the same. When everything is coming your way, you're in the wrong lane. You know what you did, you know what was said, done is done, now it's done...

Well, here it is. The most anticipated year of our High School career and for the first time ever I'm at a loss for words. I want to write, "It's been fun" but in all honesty it hasn't been all fun. It's been tough, stressful and complicated; but what it has been is real and I wouldn't change it for the world.

Mom&Dad: Thanks for everything you've done for me. You're two of the greatest parents in the world. You've always given me everything you can and I'm so grateful for that. I love you both tons. **Ty,Pat&Renae**: You three are simply amazing; the best siblings anyone could ask for. Growing up with you by my side has been incredible. You've taught me a lot of useful and useless information. I love you so much. **All of my friends**: To all of you who have been there at my side throughout these difficult years called life. I don't know how you've put up with all of my ups and downs, but I appreciate it. You're always there to make me smile. Thanks again to everyone and I love you all. If you pass someone later in life who looks lost, or who has walked past the same spot at least fourteen times with a look of utter befuddlement upon her face, and who is carrying an abnormally large amount of completely useless junk, do me a favor and stop to help her out. She would really appreciate it. We both would really appreciate it. We all know I need a point in the right direction now and again. I would probably still be walking in circles looking for math class or trying to remember my combination if it weren't for all of my splendiloquent friends. Mwah, I love you all.

No really, I mean it.

Guess what? We made it class of 2008. I would like to thank my loving parents and my little brother Sam for always being there, my Aunt Robin and Uncle Steve for pushing me towards my goals. And finally to all my friends, you have been that handprint on my heart. While finding Mr. Penny, baking ginger bread houses, crying over boys, the bathrooms at outback, or just chilling at the park. I have treasured every moment. Don't forget if you ever need me just text pop. No Crying, No Screaming, and No Being weird Ya Right!!! I hope you all have learned from me like I have learned from you. If I never took the time to get to know you it was my lost. Congrats class of 2008. I love you all Shalom (6/6/6 I can't die)

My god, who would guess that the four most difficult, dramatic, important, and stressful years of grade school would WHIP by like these did? A year from now, there's a chance I'll be living on my own for the majority of my time, and here I am. I haven't worked a job one day in my life; I rely solely on the huge inflows of cash on my birthday and Christmas time from "Mommy and Daddy" just to get by, and one of my main concerns for college is the possibility of not having a Nintendo Wii in my dorm room. Sean Crosley's gotta man up! Anyway, I want to give out some dedications. Mom and Dad, I'm beginning to realize that you guys really wrote the book on perfect parenting. I couldn't in my right mind tell you anything you could have done better during my childhood. Each of you made me feel so loved all the time, no matter what lame excuses I gave you for my screwups, no matter how many dumb comments I threw at you like a menstruating woman, you forgave me every time. I only wish I'd have listened to you more. I love you guys so much, thanks for everything so far. Marisa, despite the lame annoying little sister jokes I sometimes throw around for a laugh, you are a blast to hang around with, and a purely great person. Keep doing what you love, you have no limitations. To all my relatives, Auntie, Uncle, Mema, and all the others, thanks for being such cool relatives, and for being my third party source of advice. I looked forward to seeing each of you every time I had the opportunity. To the Plourdes, my official second family, you guys showed me SO many good times, in so many different places. Our good times are far from over, thanks for everything so far. To Mr. Ocock, my music teacher, I can't thank you enough for showing me how wonderful music is, and how much I truly loved it on the inside. It takes a special kind of teacher to do that to somebody. I had a blast learning from you these four years, you will never be forgotten. To all my friends, I can't even begin to list them all off, you all know who you are, you all inspired me to be myself, and I won't forget one of you. And hey, we haven't even begun to party it up yet; I'm four years away from 21! Thank all of you for making me who I am today, you are all the BEST.

Don't say I didn't warn you when the zombies come.

Whether they do or not, I want to thank my friends for making my high school experience tolerable, if not enjoyable.

I also want to thank my parents for pushing me to try harder in school and helping me with whatever stupid problems I had. They made high school bearable.

Finally, I want to thank all of my teachers that have shown a passion for what they do and a desire to make learning a fun experience. They made me look forward to going to class and without that I don't know what I'd do.

I want to thank my irreplaceable family, Mom, Dad & Greg, for supporting me through everything I have every wanted to do, and helping me survive high school amongst it all. And, of course, my friends, everything we've done together, especially Maine, you are all wonderful and I wish you the best of luck in your futures, especially those who challenge the extremes; like Med School or a Gap Year.

♥ Masco was a huge change for me, but you helped me through it. **Dad&Mom**- thanks for everything. **Trey**- I've missed you during your years at Elon, but you still provided me with support. **Cate**- although we will probably never remember exactly what we wanted to do on your 18th birthday, we have so many memories that cannot be erased. And even though we've only had 2 classes together, you've still grown into the best friend I could ask for. **Janelle**- ever since PA freshman year, you've always supported me. You caught me when I fell (literally), and you continue to do so. Thank you for always being there. For everyone else, even though you're not in my senior square, you're still in my heart. I love you all.

♥ I came here from a small private school, and now I have an idea of what the world is like. **Masco**, thanks for breaking my green shady bubble.

So I guess this is it. It's been a long four years and I just want to say it's been great being with you guys for the whole ride. Midnight pool tables, beach fires, concerts, and all the other stupid ridiculous shenanigans we've pulled over the years are always going to stay in my memories. Thanks Mom and Dad for always putting up with me and giving up so much for me. Thanks Soyun, for always being there for me even all the way from England or Chicago or wherever you'd be. XC guys, you were always great. BMT folk, some great times with the station. Thanks Masco, for electing me, all that hard campaigning really paid off. Thanks to everyone I'm forgetting to mention for everything. And thanks for the lovely book. The class of '08 is always gonna be the best, and good luck to all of you for next year. To everyone reading, take it easy. I'm off to take some time to enjoy myself, have some fun, and look forward to the college life.

Cheers,

I promise myself:
To be so strong that nothing can disturb my peace of mind.
To talk health, happiness, and prosperity to everyone I meet.
To think only the best. To work only for the best and expect only the best.
To be just as enthusiastic about the success of others as I am about my own.
To forget the mistakes of the past and press on with the greater
achievements of the future.
To give so much time to the improvement of myself, I wont have time to
criticize others.
To be too large for worry, too noble for anger, too strong for fear, and to

"So many people live within unhappy circumstances and yet will not take the initiative to change their situation because they are conditioned to a life of security, conformity, and conservatism, all of which may appear to give one peace of mind, but in reality nothing is more dangerous to the adventurous spirit within a man than a secure future. The very basic core of a man's living spirit is his passion for adventure. The joy of life comes from our encounters with new experiences, and hence there is no greather joy than to have an endlessly changing horizon, for each day to have a new and different sun." -- Chris McCandless

Well I cannot believe I am writing this little ditty already. It seemed like yesterday we were all freshman. I just want to say thanks to all my boys that helped me get through every inch of this thing we call high school. If it wasn't for yall, I don't think I would of made it. Mom and Dad I love you both thank you so much for all the help through all the car wrecks and everything ☺. Thank you Dad for giving me the hard working mentality that you have. My brothers… Jimmy and Brad. You both have been through the Masco experience, thanks for all the help that you have given me through these years! Thanks to everyone who has given me advice and helped along my journey of life. I appreciate every bit of it. Jonathan Monroe, what can I say we have had so much fun together and I hope you realize how much I appreciate your friendship. You're the man and you've been my best friend since day one of freshman year, you remember the Ville Valo action! Hannah you crazy girl… you knew I had to mention you, thanks for everything and you mean a lot to me. Also I just want to give the best of luck to all of my class mates. There is another thing I forgot to address … and this goes out to my class mates who think this is funny… UHHHHH YEA CLASS OF 2008! To all those opposed… well

And I know everyone is expecting this from me so here it goes…

Thanks for EVERYTHING! I love you! **Liz (Shuen Shuen)-** My Asian pal! We are so different, yet so much alike. However, your my person (haha Grey's) and we are friends…best friends. And that means, no matter how long it takes, when you finally do decide to look back, I will still be here for you! <3 you soo much hun! Good Luck next year!
To everyone else KB, DM, ED, MM, Emmy, MP, EmMurph,….and the class of 2008- Good Luck in the years to come! <3

Looking back now… I feel like our lives changed because they had to…somehow we held together when it felt like nothing would ever be the same again. Some things never would be. But we know now that no matter how far we travel on our own separate paths… Somehow we will always find our way back to each other. And with that, we can get through anything… So: To us. To who we were, who we are now, and who we'll be. To this moment, and the rest of our lives…. Together and apart.

"The present moment is the only time over which we have dominion. The most important person is always the person with whom you are, who is right before you, for who knows if you will have dealings with any other person in the future. The most important pursuit is making that person, the one standing at you side, happy, for that alone is the pursuit of life." (Leo Tolstoy). If there is one thing I learned during my time at Masconomet, it would be that every moment of life is something to be cherished and every person, if given the chance, has something to contribute. The key is to actually listen to others and not speculate but learn the truth, for in the end that is all there is. The truth. ~G. Musto~

"TREAD LIGHTLY, BUT CARRY A BIG STICK"

First I'd like to say thank you to my family, especially my mother and father. You guys were always there for me, and never let me get out of line. Both of you helped shape me into the person that I am today, and will always be there to remind me of who I can be. You two are my rock throughout the storm. Next is my little brother, Cole, who was always there to give his whole hearted honest opinion on everything, even if it wasn't what I wanted to hear. Haily....what can I say? Many nights we were up doing homework, or I was doing homework and you were sleeping face down in your books. Keep up the good work, someone has to. Carly...you're the best. I wouldn't have had it any other way. I don't know how this passage of my life would have been without you by my side. You stick with me through thick and thin. Never fading, always there to pick me up and give me that big smile of encouragement. You know I love you babe. (Now everyone knows, the secrets out) Skinner, Josh what can I say, you're the best. Erica, keep fighting the good fight and don't ever let someone tell you what to do. I'll always be here. Josh, the pact still stands, so I can't get too sappy here. Caaaassandra and Casey, I'll get it right someday don't worry. You two will be jus fine. Good luck to you all!

Well in the end my friend we will all be together again, in a valley we'll stand, just living again
And in a while we'll smile, march another mile, and we'll all be together, together again,
Taking off to the city on down.

To my best friends, Cam, Divo, Papa George, Costas, Rwalk, Dmac, Ryan Dillon, Tyler, Zak, Kevin, Kaileigh, and all the others, there have been more great times than I can remember. Thanks to you guys, these days will forever be remembered with a laugh and a smirk as I recall all the crazy things we've gotten away with. And finally to Brett. From the moment we met back as freshman, I knew we would have a special relationship. Through all the laughter and the small fights we've been through, you've always been there for me. I am truly happy to say you are just as much a part of my family as I am, only I think mom likes you a little more than me... Thanks for the memories and your advice during all those long talks we've shared. I could never have done it without you, and I will always be there for you if you need me. Best of luck to everyone!

To all my friends, people I know, and to the people I don't know so well I have some advice. Most people waist their lives on pointless endeavors, such as looks, popularity and impressing others. Why do we do these things though and at what cost others and ourselves? Our time now is important so don't give it up to things that don't matter. Help out people who are in need. Not just those who are hurt, hungry, cold, but those who are alone and need a shoulder to lean on. And don't cast those aside who seem different or strange, because you may find you have more in common with them then you know.

I can't believe how fast these four years went by. I learned a lot going through these years at Masco; the main thing is finding yourself and the type of person you choose to be and I have my family and friends to thank for helping me do that.

Mom – My truest best friend, words can't even explain how thankful I am to have you as my mother. You have stuck by my side through everything and you always supported any decision I made in life. You have always encouraged me to pursue my dreams and did everything you could to help me succeed. We helped each other get through the struggles that came our way, and I never would have been able to get through it without you. Thank you so much and I love you.

Dad – You've helped me a lot these past four years. I just wanted to say thank you for putting up with me lol. I know things didn't turn out as we might have hoped, but I still love you no matter what or who comes into the picture and that will never change.

Foo & Adam – The best brothers I could ever ask for. I love you both so much and I am so glad that you two are in my life. Adam –Good luck in your years at Masco, don't worry they'll fly by. Foo- Good luck next year as a senior, I know you'll succeed in whatever you choose to do.

Mustafa & Yousef - My second brothers, I love you guys so much, you both have been there for me through everything, thank you for that: Yousef – I know I can talk to you about anything and you give the best advice.

Moo – Always there when I need a logical answer lol.

Stacey Markos, Mary Busby, and Jess Crowley – the best friends any girl can ask for, you guys define the meaning of true friends I love you three.

What I have learned from my parents and past experiences: All journeys have secret destinations of which we are unaware. So drop the question of what tomorrow may bring, and count as profit every day that Fate allows you to live. And take advantage of those days by living life to the fullest. Take only memories and experiences with you as you grow, and leave behind only footprints. Live in simplicity, by owning only what you can carry and by knowing language, knowing countries, and knowing people. With that, live your lives. Explore, discover, and journey out into the world. There is so much to do, see, and experience in such a short amount of time. Life is too short not to experience the amazing opportunities that the it has to offer to you. "There are places I remember all my life, though some have changed. Some forever, not for better, some have gone and some remain." I remember so much. The amazing experiences that I have had with my family and friends are ones which I will always cherish. I am at peace each time we watch the sunset's reflection on the Big Lake in Freedom. I am at peace each time we experience the feeling and thrill of reaching the peaks of the White Mountains. Seeing the peaceful ranges in front of me with those that I am closest to gives me warmth; it gives me hope, freedom, love, and joy. All the memories spent on the Big Lake; the wakeboarding and relaxation at Long Sands and Camp Cody; makes life all the more enjoyable and relaxing. And then a night or two, maybe ten...wait no fifty, in North Conway's shops and park where we have an absolute ball. **Smummsey and Palziwalzi**, my **Mom** and my **Dad:** "if not for you, winter wouldn't hold no spring, couldn't hear a robin sing. I just wouldn't have a clue, if not for you." I love you both so much. You are so amazing and have raised me to be my own person. What more could I ask for? You have taught me how to live life to the fullest and to do what I love and to love what I do. Thank you for making me who and what I am today and for all that we have done together as a family. No matter what happens, you know that I'll always love you two. Thank you. **Jakey Bnns**, **Scooter Magrooter Magoo**, and **Sissy** we have been through so many positive experiences together. I want to thank you for always being there for me. We will never be separated. We are invincible together. We are and always will be **The Four Jays**. That will be the name of our band. We'll make it big baby! World, here I come. The journey has just begun, and I am determined to make a difference in this world. **M.D.S.-S.ES.-J.L.S.-J.D.S.-J.M.S.-J.L.D.-L.L.C.-J.S.T.-R.Q.-John Patrick.**

things are obviously going to change but the important things will stay the same. i know sitting on the same couch in the same basement with the same people will never really get old, even though we all complain about it all the time. good luck to everyone in being successful in your own ways; my personal success will be complete when i learn to pronounce Sheryl Crow without a speech impediment.

Clownlike, happiest on your hands,
Feet to the stars, and moon-skulled,
Gilled like a fish. A common-sense
Thumbs-down on the dodo's mode.
Wrapped up in yourself like a spool,
Trawling your dark, as owls do.
Mute as a turnip from the Fourth
Of July to All Fools' Day,
O high-riser, my little loaf.

Vague as fog and looked for like mail.
Farther off than Australia.
Bent-backed Atlas, our traveled prawn.
Snug as a bud and at home
Like a sprat in a pickle jug.
A creel of eels, all ripples.
Jumpy as a Mexican bean.
Right, like a well-done sum.
A clean slate, with your own face on.

In times like these Mom and Dad you've been there for me since the very beginning. Everything I have ever needed you have given to me...including an unbelievable amount of love and support. I don't even know how to thank you but by saying I wouldn't be the person I am today without you.
In times like those Chris you're the best. Most people hate their younger siblings but I could never hate you, even though I might say I do sometimes. I honestly could not ask for a better younger brother. Right now you're succeeding in about everything you do and I can only wish for your continued success. Enjoy high school while it lasts...it goes by really fast. Oh and don't forget to look behind you when you're backing out of the garage!
What will be will be If I could write a whole page about each of my friends I would. There have been so many good times...too many to fit into a 5 1/8 by 2 1/4 box. Instead everyone can find their names in all of the letters in this box. You might not all be right next to me, visible for the world to see, but you'll always have a hidden place in my heart.
And so it goes Finally thank you to all my teachers and coaches and anyone else who has pushed me to achieve my potential. I can't always do things alone and sometimes need an extra push.
And it always goes on and on... Thank you to everyone who has touched my life in some way and made me into the person I am today. Well this is goodbye!

For all of the prom kings and homecoming queens, all the stuff we were told might be true but what about the rest of us? For us it's different, we're never so lucky, but either way: good or bad, nothing, not even high school, lasts forever. For all of the ridicule and torment I ask "why me?" and for all of the praise I ask "did I deserve it?" To everyone who was there for me, you probably saved my life, I'm afraid to think what I would be without you. To everyone who could have been, but never was, it's your loss and goodbye. Even if you can't say it Kai, I will: "I love you" I trusted you with my heart, but please don't break it. Paris, thank you, for everything; for every time you were there when no one else was, I'll miss you, but promise me that no matter where we end up, we'll see each other again after it's all over. Pep Band=Party Band. Rock on my fellow Bandies.

"In this great future you can't forget your past"-Bob Marley, **NG DW GV JG CK**

To the few and the proud in the Gentlemen's Club **TM TR JAG JR CL MK** Great times

E-These 4 years have been a crazy trip and went by almost too fast. I've been through good times, bad times, crazy times and from it I've learned a lot. Somehow, through everything I made it and I'll never forget the people who helped me along the way. Life's a dream left for you to create so live in the moment and hold nothing back.

Football-To all the guys on the team you kept me on the right path and have given me some of the best times of my life, keep lifting, stay focused, and win another title!

Mom &Dad- Thank you for all the support. I couldn't have made it without you two

Looking back on high school brings a wash of memories to the front of my mind. Which to mention? Who to thank? It would be impossible to ever fully condense my experiences into this small box. However, I'd have to say that, overall, I've had a wonderful high school experience. Sure, there were some long nights of studying that seemed like they'd never end, but I wouldn't trade those red-bull fueled cram sessions for anything, for they made the good times that much better – like the long cross country runs that were more about bonding with teammates than exercise, the countless Jazz Connection and other WBMT pranks, being let loose in New York City or Boston every year with friends for Model UN, the trips abroad to Belize and Germany, and all of the laughs had in classes passed that I can't recall. It really has been fun. And for that, I have to thank my family, who I love more than I could ever put into words. Also meriting mention is Mr. Walsh, for being more than a great teacher but a mentor, and my fifth-grade teacher Mr. Bateman, who inspired me to question and triggered my insatiable thirst for knowledge. Last but not least, all of the friends who I've had throughout the years. You know who you are, but thank you for everything and I hope we stay in touch.

It is said that graduating from high school closes the "growing up" chapter in one's life. While that may be true, it is also true that closing a chapter does not mean that one becomes something new. We are a culmination of our experiences and the people we meet, and I know this is a chapter I'll enjoy re-reading in years to come.

Thanks Mom and Dad for everything. You guys let me do a lot. PJ, my brother and a great friend, do good, stay out of trouble. Rusty, try hard and do well. Jim, basically family and a great friend for my whole life, biking and everything else. To all my friends who I've been with throughout high school or my whole life thank you for the memories and everything we've done. It's been fun for me. The hockey locker room and lunch table, haha. Everyone good luck. See ya.

Jordan,
It seems like yesterday you were starting to walk with your curls bouncing all around. We feel like we blinked, and here it is 2008 and you are graduating from High School. You have made us most proud, not because of all your accomplishments, but more so because of the wonderful woman you've become. You are self-confident, caring and independent. Always know you have your family and faith. Both of which will always be there for you as you travel through life. May you always have time to stop and thank God for all the blessings in your life.
Dreams can come true if you take the time to think about what you want in life.
Get to know yourself. Find out who you are. Choose your goals carefully. Be honest with yourself. Always believe in yourself. Find many interests and pursue them. Find out what is important to you. Find out what you are good at. Don't be afraid to make mistakes. Work hard to achieve success. When things are not going right don't give up, just try harder. Find courage inside of you to remain strong. Congratulations!
Love,
Mom, Dad, Kaitlin and Michael

TO MY SON

Tenderness from deep within
Touches my very soul
From the first moment I laid eyes on you
Til in my arms I did hold

Your innocence did fill my heart
As I gazed down on your face
I knew the years would soon rush by
As if in a marathon race

Where has the time gone Ben?
From toys to pickup trucks
Why it seems like only yesterday
You were riding on the bus

Now it's lacrosse games and senior prom
Then tomorrow college starts

What's this you say you've found someone?
And she has won your heart
It's wedding bells and soon you tell
You're having a son of your own

What joy there will be as you will see
When you bring God's gift back home
Keep a watch my son let him romp and run`
For the years will come and go

Take time to teach and love him and respect for him always show
For these simple words of wisdom
Will cause his love to grow

We love you,
Your family

To our son Clint.

You have grown to become a well-rounded young man, with so many talents, just waiting for you to execute on. When you first started school all those years ago, you were very cautious; we have seen that grow into confidence. You have talents that you cannot appreciate yet, however in the years ahead; these will grow into incredible skills, which will shape your life. We are lucky that we have you as our son, and will be there to support you with your journey into your life. Always keep your free spirit, your million-dollar smile and your inquisitive way, most of all, be true to you, who you are as a person, and who you are growing into as a man.

Love Always,
